

Bullet Network Camera **IP8372**

5MP • 30M IR • Smart Focus System • IP67 • Cable Management

VIVOTEK IP8372 is a professional bullet camera offering 5-Megapixel or 1080p Full HD resolution with superb image quality up to 30 fps. Featuring 5-Megapixel resolution and high-performance H.264/MPEG-4/MJPEG compression technology, the IP8372 offers extra-smooth video and wide coverage.

The IP8372 employs many advanced features to allow users to fully utilize the high definition video. The ePTZ function enables users to zoom in and focus on a region of interest (ROI) in the camera view with only a few clicks of a mouse.

For installers, properly adjusting the focus of a megapixel network camera can be difficult due to the level of image detail. The Smart Focus System allows for easy installation and adjustment by adopting a lens with a built-in stepper motor that can remotely control the focal length and precisely adjust the camera focus, offering hassle-free installation and maintenance.

Aimed at outdoor surveillance, the IP8372 is furnished with an auto-iris lens, a removable IR-cut filter, and 30-meter IR illuminators for superior image quality around the clock. Moreover, the IP67-rated housing protects against rain and dust and ensures functional operation in all types of weather conditions. For easy management and waterproofing, the IP8372 is also equipped with a mounting bracket that conceals all cables within.

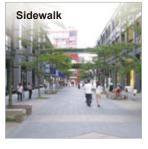

With other advanced features such as tamper detection, 802.3af compliant PoE, SD/SDHC/SDXC card on-board storage, and two-way audio, the IP8372 is an all-in-one network camera for detailed surveillance in outdoor environments.
